## *History*

### ***Agri Parts***

The AGRI PARTS started producing and trading spare parts for application on combine harvesters back in the end of seventies.

Agri Parts use procedures based on  
**UNI EN ISO 9001-2000**

of Quality System Certification

and after taking commercial agreements with important companies of the Industrial sector the Company decides to manufacture on its own some lines of replacement spare parts.

A huge variety of production equipments and a test lab have been set up to test the products in order to guarantee the quality and the conformity of the original products.

**AGRI  
PARTS** s.r.l.

## *Mission*

Our main purpose is the customer satisfaction and for this reason we are focusing on good service and quality.

The market in which we're operating requires reliability and confidence and to get both of them it's necessary to have high standard of quality on our products.

Our target is to consolidate and extend our position constantly investing in research and development, becoming the Italian leader for replacement spare parts, proposing alternative solutions that allow cost savings, even for small / medium quantity.

**AGRI  
PARTS** s.r.l.
